

YOUR GUIDE TO RECYCLING PLASTICS

**PLASTICS MUST BE
SEPARATED INTO TWO (2)
BINS**

BIN 1

FILM PLASTICS

criteria for film plastics

- Must be from residential consumable product packaging (no commercial/construction materials)
- Must be one material (of plastic)
- Cannot be crinkly

Examples:

Grocery Bags, bread bags, produce bags and overwrap.

BIN 2

FLEXIBLE PLASTICS & PACKAGING

criteria for other flexible plastics & packaging

- Must contain a combination of plastic materials
- Must be from residential consumable products (no commercial or construction material)

Examples:

Potato chip bags, dog/cat food bags, woven & net product bags, bubble wrap and plastic/bubble envelopes, tand-up/zip lock bags, potato chip bags, chocolate bar wrappers, crinkly food packaging

YOUR EFFORTS CONTRIBUTE TO A BETTER FUTURE!

THE FUTURE OF PLASTICS

separating plastics plays a vital role

Recycle BC partnered with Merlin Plastics to create a pilot project to reuse that material and turn it into a sustainable energy source called engineered fuel!
